Play - Learn - Live

# Thomley

A place for people of all abilities and disabilities

## Opportunities for specialised and mainstream schools.

### What do we offer?

Thomley works with schools to design projects from a choice of tailor-made sessions. We can adapt courses to suit your school and individual students. The activities we offer are designed to develop young people's self esteem, their physical and social wellbeing, as well as their education. Thomley's unique environment offers the perfect setting for students to learn at ease, and complete projects which could be tougher in a school environment. Or, you can just come to play and relax! School days are available every Wednesday and Friday in term time.

### Do you need transport?

From February 2015, Thomley will launch a minibus transport service for schools. We can pick you up from your school and drop you back after your visit. If a lack of transport is preventing you from visiting, then please get in touch for further details.

“For the last 4 years I've been coming to Thomley with Chinnor Autism Base. We visit every week with our class of children. They look forward to the visits all week. Some do art, some go on the bikes, some use the sensory room. It's perfect for us as there is something for everyone.”
